Making your home smarter

Can you imagine how your home could integrate itself into your daily life? Click Smart+, Scolmore's leading smart home brand, has been created to simplify and streamline your home life via the use of integrated technology.

Click Smart+ boasts an elite range of smart home products. Utilising Zigbee technology & WIFI to offer smart home solutions to new and existing wiring installations.

The possibilities of Click Smart+ are endless, but the set up, whether with WIFI or with Zigbee, is simple when using our Click Smart+ app.

## Antiviral & Antibacterial Certified

Our Mode® products within the Click Smart+ range are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases.

These products have been independently tested and have shown to have anti-viral properties against enveloped and non-enveloped viruses.

After a contact period of 4 hours, Mode® products within Click Smart+ were shown to have a 99.9% kill off rate against enveloped viruses and a 92% kill off rate against non-enveloped viruses.

All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses.

Click Smart+ app  
for ios & android

## Get to know us

With Click Smart+ we create simple, beautiful smart solutions for a safer and more comfortable home. We have many products to meet all of your household needs.

Discover a whole range of smart home products. From smart sockets, cameras, sensors and receivers, all working together to make your home smarter.

The installation of Click Smart+ is simple & flexible, no additional cables or wall cutting is needed making it ideal for installation within existing or newly constructed buildings.

Each smart product comes with easy to follow installation guides which are also accessible through the new Click Smart+ app.

Make your home smarter, more comfortable and safer with any of our smart products. Why not get creative and take control of your home?

 Look out for the Click Smart+ icon...

Products with this icon are compatible across the whole Click Smart+ range.

## Get smart with Zigbee

**Zigbee devices can send and receive data between other Zigbee devices and the Hub. This means you can daisy chain smart devices and link them to a central hub, even when some of these devices are out of (direct) range of that hub.\***

Zigbee increases flexibility for users and developers, delivering the confidence that products and services will work together through standardisation and testing.

A mesh network/daisy chain is when a network connection is spread out among wireless devices that can communicate with each other and share a network across a large area.

Zigbee's ability to support mesh networking means it can boost data transmission range and provide greater stability (even when a single connected device fails and doesn't work).

\*Click Smart Plus works on a Tree-based Wireless Mesh Network. Battery operated devices cannot boost the data transmission range.

## Get Creative

Automate your home with the Click Smart+ app.

### 'Tap to Run' Smart Scenes

Tap-to-run also known as 'Scenes' enables you to run multiple devices with a single tap of a button (within the Click Smart+ app). Think of this as one switch for a group of products.

For example you can create a Tap-to-run called 'Good Evening' which turns all your smart products on at once, instead of manually tapping each product within the app. Tap-to-runs can also control delay timings.

To control your Click Smart+ products through voice control you must have an Amazon Alexa speaker or a Google Home Speaker set up in your home and connected to the Click Smart+ app.

### 'Automation' Smart Scenes

Automations control your devices automatically when a condition is changed.

For example, you could programme a PIR detector with a switching receiver. When the PIR detector senses movement the automation (set up in the Click Smart+ app) can tell the switching receiver to turn 'ON' automatically.

Automations also allow you to set up timing Schedules for a group or singular smart products.

To control your Click Smart+ products through voice control you must have an Amazon Alexa speaker or a Google Home Speaker set up in your home and connected to the Click Smart+ app.

## Stay Connected

Access your smart devices wherever you are and control them with Google or Alexa.

### Control wherever you are

Peace of mind away from home. Easily check and change the status of your Click Smart+ devices wherever you are.

### Hey Google!

Connect Click Smart+ to your existing Google Home devices. Just search for Click Smart+ in the Google Home app.

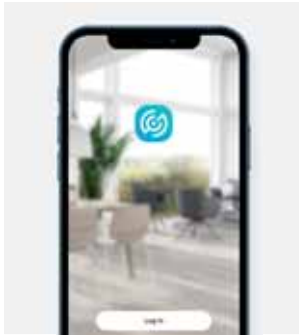

### Alexa...

Have an Amazon smart speaker? Link your Click Smart+ devices in the Alexa app.

## Start smart

Click Smart+ Hub - Set up Guide.

### Click Smart+ App

Search and download the Click Smart+ app on ios or android devices. You will need the app to add, control and link all of your Click Smart+ devices.

### Adding the Hub

Once you are in the Click Smart+ app press the '+' icon and choose the Smart Hub, or use the auto scan feature to automatically detect your device.

### Complete Set Up

Once the app has found the Smart Hub simply follow the on screen instructions.

## See your home, away from home

Click Smart+ Camera - Set up Guide.

### Power Up!

After finding your perfect location, simply plug in your camera to a standard UK socket outlet.

### Pairing Mode

You should now see a solid red LED light, after 10 seconds you should hear a chime & see a flashing LED light. You are now in pairing mode.

### Complete Set Up

Open the Click Smart+ app and press the '+' icon and choose the Smart Camera. Then simply follow the on screen instructions.

## Your home, your way

Click Smart+ Zigbee Products - Set up Guide.

### Click Smart+ Hub

Before setting up any Click Smart+ Zigbee supported products, please make sure you have set up your Smart Hub.

### Installing

Once you have finished your installation, your Click Smart+ Zigbee supported product will automatically enter pairing mode.

### Complete Set Up

Open the Click Smart+ app press the '+' icon and choose the correct product, or use the auto scan feature to automatically detect your device.

## A smarter switch

Switching & Dimming Receivers - Set up Guide.

### Dimming Receiver

Install the receiver as per the provided instructions. With the light switch off, press the retractive switch down and hold for 10 seconds. The LED light on the receiver will flash. You are now in pairing mode.

### Switching Receiver

Once wired up, flick the switch on & off 5 times until the light no longer turns on or off. You will also be able to see a flashing LED on the receiver. You are now in pairing mode.

### Complete Set Up

Open the Click Smart+ app press the '+' icon and choose the correct receiver, or use the auto scan feature to automatically detect your device.

## Smart Switching

### Click Smart+ GridPro® Modules

The Smart GridPro Scenario Switch is a wireless switching solution. It can work in conjunction with other ClickSmart+ devices to design and implement smart application scenarios.

### Remote Switching

Configurable within the ClickSmart+ App for remote switching.

### Wireless

Battery powered modules.

### GridPro Module Design

Install via clip in method with yoke assembly or screw directly into the frontplate.

### Wireless pairing to ClickSmart+ Switching and Dimming receivers

From simply turning on lights with a ClickSmart+ switching receiver (CSP041/CSP042), to turning on appliances with the ClickSmart+ smart sockets.

Available in white and black finishes
