Welcome to Scolmore® International

...the complete range of Electrical Accessories

Scolmore® International is one of the UK's leading manufacturers of electrical accessories. The company is proud to be a British-based, family-run business with an international reputation for quality, innovation and exemplary customer service.

From our Head Office in the Midlands, we design, develop and manufacture an ever expanding product range for distribution throughout the UK and worldwide.

The Click® Wiring Accessories range remains the number one choice of electricians and contractors who value the flexibility of the modular based range, as well as the one-stop solution that the comprehensive offer allows.

Our online ordering service is supported by automated order picking and processing procedures which enables us to offer service levels we believe are unprecedented in the industry. The company is committed to harnessing the very latest technologies and developing superior-performing, competitively-priced products which allow installation projects to be completed quickly and easily.

About Scolmore®

Since our incorporation in 1989 we have grown to become a leading player in the electrical accessories market. The company is proud to be a British-based, family-run business and has earned itself a reputation worldwide for quality, reliability and innovation.

As technology continues to drive the electrical industry, with the focus on smart homes and building automation, Scolmore's investment in R&D ensures that the very latest technologies are harnessed to provide installers, contractors and specifiers with the most cost-effective, time-efficient solutions across a broad range of domestic and commercial applications.

Central Location - England

Based in the Midlands at our purpose built 48,000sq ft Head Office and Distribution Centre, we are ideally located to design, develop, manufacture and distribute our ever-expanding product range worldwide.

A People's Business

Scolmore® International is a company that revolves around people – our team, our customers and the strong relationships we build and maintain through our consistent high levels of service and delivery.

MD, Gary Mordue strongly believes the dedication and skills of his team have contributed to the continuing success of Scolmore®:

“The company is very much built on people. Each individual makes a unique contribution to the business and its customers. The professionalism, skills and knowledge of our team throughout the business allow us to deliver every customer the product they need, when they need it, high quality at the best price.”

The Home of Click®

Scolmore's Click wiring accessories range remains a firm favourite with electrical contractors, thanks to its modular design which offers unprecedented flexibility in creating dedicated solutions for specific wiring tasks. From functional, moulded switches for a domestic property to sophisticated modular grid solutions for complex, commercial applications, Click offers a product design, finish and price for every conceivable project.

Visitor Centre

The recent expansion and total redesign of the Scolmore® Visitor Centre has created a state of the art showroom and conference centre and an ideal backdrop to showcase an ever-expanding range of Scolmore® International products.

Now with the ability to accommodate up to 60 guests, it is the ideal venue to host a range of events including product launches and demonstrations, training courses, meetings and corporate and industry events.

We actively encourage our customers to make use of these facilities for meetings and presentations. We are happy to arrange product training sessions on request and look forward to welcoming people to the Visitor Centre.

For more information please contact your area sales or the Marketing Department on 01827 63454.

Delivering New Products

Our new product development team are constantly tracking market trends, approval standards and providing customised products according to unique specification. This ensures we continue to increase our product range to meet the ever-changing needs of our customers.

CLICK®

Decorative Wiring Accessories

A comprehensive range of decorative metal wiring accessories now available from Scolmore. A brand that is synonymous with high specification, high quality, long life and unprecedented value for money. Each product is supplied individually packaged in its own distinctive printed box complete with comprehensive fitting instructions.

deco PLUS deco define definity

MINIGRID®
Compatible with MiniGrid Modules

All Click® Decorative Wiring Accessories switch plates are modular as standard, allowing you to create virtually any switch plate you require.
e.g. Two way switch next to a dimmer mounting module.

Premium Decorative Metal Wiring Accessories

A comprehensive range of premium decorative metal wiring accessories, Deco Plus®. A brand that is synonymous with high specification, exceptional quality and unprecedented value. The smooth contemporary curves of the Deco Plus® range are available in seven finishes to complement any room. All of the switch modules featured in our dedicated modules brochure can therefore be used in any combination on Deco® Plus accessories.

Available Finishes:

Antique Brass, Polished Brass, Polished Chrome, Satin Chrome, Black Nickel, Stainless Steel and Satin Brass.

Decorative Metal Wiring Accessories

A comprehensive range of decorative metal wiring accessories, Deco® is synonymous with high specification, high quality, long life and unprecedented value for money. Deco® switches feature the same modular switch design as our moulded ranges. All of the switch modules featured in our dedicated modules brochure can therefore be used in any combination on Deco® accessories.

Available Finishes:

Antique Brass, Polished Brass, Polished Chrome, Satin Chrome, Satin Brass, Black Nickel, Pearl Nickel, Stainless Steel and Georgian Style Cast Brass.

All Decorative Metal Wiring Accessories Have a 10 Year Warranty

Flat Plate Wiring Accessories

Conventional plate accessory design with a standard 6mm return on the plate depth, limits the design opportunities in many installations by virtue of the fact that the plate becomes the feature instead of complementing the features of the decoration in a room. The Define® flat plate range of accessories offers up a host of new design opportunities with a comprehensive range of electrical accessory products.

Available Finishes:

Polished Chrome, Stainless Steel, Brushed Stainless, Pearl Nickel and Black Nickel.

Screwless Wiring Accessories

The smooth, clean lines of Definity™ products provide the ultimate finishing touch to a feature packed range of decorative domestic electrical accessories. Definity™ has evolved from our well established Define® flat plate accessory range and features all of the same attributes including modular switching but Definity™ goes one stage further by incorporating screwless, push-fit face plates in 6 assorted finishes.

Available Finishes:

Polished Chrome, Brushed Stainless, Stainless Steel, Matt Black, White, Red, Polar White and Metal White.

CLICK®

Moulded Wiring Accessories

Antimicrobial Certified Products

Mode®, Part M™ and Polar™ wiring accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella and Klebsiella Pneumoniae.

MODE® **Part M Range™** **polar™**

MINIGRID®

All Click® Moulded Wiring Accessories switch plates are modular as standard, allowing you to create virtually any switch plate you require.

e.g. Two way switch next to an intermediate switch.

**20 YEAR
No Quibble
Guarantee**

All Click® Mode®, Part M™ and Polar™ wiring accessories are covered by our straight forward 'No Quibble Guarantee' against any fault in materials or manufacture experienced at any time within 20 years of the date of supply.

Part M Range™

Visually Contrasting Wiring Accessories

Click® Part M™ wiring accessories work perfectly with Part M1 building regulations. Part of the requirements of Part M1 is to aid disabled people within their surroundings; allowing them to activate a light, socket or control within arms length.

MODE®

Contemporary Smooth Profile Wiring Accessories

The smooth, modern lines of the Click® Mode™ accessory plate will fit easily into traditional and contemporary designs alike. The modular design of Click® Mode™ allows designers and installers unprecedented flexibility in creating dedicated wiring solutions to deal specifically with actual wiring needs. In other words, there is now no need to compromise Click® Mode™ accessories provide the complete solution to modern wiring needs.

polar™

Premium Bright White Wiring Accessories

The Click® Polar™ range of domestic electrical accessories has been developed as a distinctly different range to the traditional Click® accessory range manufactured by Scolmore International Ltd. The Click® Polar™ range was born out of a desire to offer a bright white wiring accessory product. Colour choice with wiring accessories is no different to colour choice of wallpaper, paints or other internal decorations. Installers have very definite views on just which tone or shade of white is right for a particular installation.

CLICK®

Modular Wiring Accessories

MINIGRID®

All Click® switch plates are modular as standard. Simply choose your plates & modules from our wide selection of ranges and finishes.

NEW media™

The New Media™ range encompasses a wide range of media and power modules, providing the designer and installer a host of solutions for all manner of media cabling problems.

GRIDPRO®

GridPro® frontplates and modules. A comprehensive range with a variety of finishes and 20A rated modules ideal for both domestic and commercial applications.

GridPro Features & Benefits

- No Yoke for 1 - 4 Gang GridPro® Frontplates.
- One module fits all
- Antimicrobial moulded plates
- 1-24 Gang Faceplates
- Clip-on modules
- Universal Yokes

MINIGRID®

Interchangeable Plates and Modules

Click® MiniGrid® modules are fitted as standard into our moulded Click® Polar™ and Mode® plus our decorative Definity™, Define®, Deco®, Deco® Plus and Metal Clad wiring accessories. The MiniGrid® modules are all easily and quickly exchanged or mounted onto unfurnished plates by means of a simple single screw fixing.

GRIDPRO®

Interchangeable Plates & Modules

GridPro® frontplates and modules offer a wide range of modules and frontplates to choose from. All of our switch modules are 20A rated so they are ideal for both domestic and commercial applications. The GridPro® range will complement your existing Click® installation, as the range was specifically designed to seamlessly match our existing ranges of Click® wiring accessories.

**new
media™**

Media Cabling Solutions

Instead of numerous unsightly individual sockets, a single New Media™ plate can be used at a convenient point to bring together any combination of media modules. The individual modules are available in black or white finish and are suitable for mounting on blank plates from selected accessory ranges, namely the Polar™ and Mode® moulded accessory ranges, the Click® Metal Clad range plus the Deco®, Define® and Definity™ decorative metal ranges.

CLICK®

Essential Wiring Accessories

Essential products for any installation. The Click® Essentials™ group of products comprises those items that you will find in a wide variety of installations. Products such as junction boxes, flush mounted switch and socket boxes.

essentials™ **AQUIP⁶⁶** StudBox® METAL CLAD *flow*

essentials™

Essential Products for any Installation

The essentials™ group of products comprises a range of items required for a wide variety of installations, such as red accessories, floor accessories, ceiling accessories, junction & link boxes, fuses trailing sockets, adaptors & plugs, flush mounted switch and socket boxes. Essentials™ also holds the Aquip66®, Metal Clad, Flow™ and Studbox® brands within the range.

METAL CLAD

Essential Products for any Installation

The essentials™ group of products comprises a range of items required for a wide variety of installations, such as red accessories, floor accessories, ceiling accessories, junction & link boxes, fuses trailing sockets, adaptors & plugs, flush mounted switch and socket boxes. Essentials™ also holds the Aquip66®, Metal Clad, Flow™ and Studbox® brands within the range.

AQUIP66®

IP66 Weatherproof Sockets & Switches

A comprehensive selection of weatherproof electrical accessory products with a polycarbonate construction that makes the Aquip66® range a durable and long lasting heavy duty range of products. Available with either 10A MiniGrid® or 20A GridPro® Modules allowing the installer total freedom in designing customised solutions according to on-site requirements.

MINIGRID™

10A Switch Modules

Minigridd™ switch modules are 10A rated so and feature a simply single screw installation.

GRIDPRO™

20A Switch Modules

Minigridd™ switch modules are 10A rated so and feature a simply single screw installation.

Simple Connectivity and Control

Flow™ is Scolmore's quick-connect system designed to speed up installation and allows quick and simple removal of the unit when carrying out routine maintenance, circuit testing or replacing components. This means testing procedures can be carried out quickly, accurately and effectively, with minimum disruption.

Flow™ Wiring System

Using a combination of connectors, hubs & management boxes wiring a lighting circuit is easy, & with suitability of loads up to 20A you aren't just limited to lighting.

Cut install time in half

The new Fast Fit Flow™ Connectors have push in lever terminals & are compatible with the current range of Flow™ Connectors. Time is a key factor during any installation process, therefore our new range of Push Fit Connectors with low maintenance terminals not only enhances the existing range but offers installers a time saving benefit because no screws are required!

Locking peg

The connector cover unlocks by simply turning the locking peg.

Strip length marker

Ensuring the installer correctly prepares the cable to the optimal length.

Time saving levers

Simply push lever down, offer stripped conductor into the terminal & then release the lever, ensuring the cable cannot easily be pulled out.

Built in cable clamps

In built on all entry points offering versatility on a range of cable types & sizes saving time for the installer as no screws are required.

Making your home smarter

Can you imagine how your home could integrate itself into your daily life? Click Smart+, Scolmore's leading smart home brand, has been created to simplify and streamline your home life via the use of integrated technology.

Click Smart+ boasts an elite range of smart home products. Utilising Zigbee technology & WIFI to offer smart home solutions to new and existing wiring installations.

The possibilities of Click Smart+ are endless, but the set up – whether with WIFI or with Zigbee – is simple when using our Click Smart+ app.

Look out for the Click Smart+ icon...

Products with this icon are compatible across the whole Click Smart+ range.

Control Wherever you are

Peace of mind away from home. Easily check and change the status of your Click Smart+ devices wherever you are.

Get smart with Zigbee

Every Zigbee device can send and receive data from other Zigbee devices. This means you can daisy chain smart devices and link them to a central hub, even when some of these devices are out of (direct) range of that hub.

Download the Click Smart+ app for ios & android

Hey Google

Connect Click Smart+ to your existing Google Home devices. Just search for Click Smart+ in the Google Home app.

Alexa...

Have an Amazon smart speaker? Link your Click Smart+ devices in the Alexa app.

A la mode for Greenfields Community Housing

Scolmore® Group's Mode® wiring accessories have been specified for installation throughout Greenfields Community Housing properties in the Braintree District, Essex. Greenfields Community Housing's stock currently numbers around 8,500 homes, which are situated all over the Braintree District; covering Braintree, Witham and Halstead and many surrounding towns and villages.

Selected for the flexibility that its modular design offers, Mode is a stylish, contemporary and flexible range of smooth profile wiring accessories, with modern lines, which make it perfect for many applications. The modular design of Mode gives installers unprecedented flexibility in creating dedicated wiring solutions that meet specific wiring needs.

Scolmore® experiences World of Wedgwood

Set up in 1759 by Josiah Wedgwood, the grandfather of naturalist Charles Darwin, the 256-year-old Wedgwood Company, in Staffordshire, is one of the oldest in the world. When it came to refurbishing and developing the £34m World of Wedgwood Attraction, products from across Scolmore® Group's wiring accessories range were specified for installation.

This extensive project included the refurbishment of the existing building, creating new manufacturing facilities, offices and catering facilities, as well as new builds that included the Wedgwood experience Tea room, Kitchens and a new extension to the museum. Products from the Mode®, MiniGrid® and Metal Clad ranges were selected for installation throughout and included switched socket outlets, fused spur connection units, along with switches and dimmer switches and a host of wiring accessories products.

Mode® is a stylish, contemporary and flexible range of smooth profile wiring accessories. The modular design of Mode® allows designers and installers unprecedented flexibility in creating dedicated wiring solutions to deal with specific wiring needs. The MiniGrid® range of interchangeable plates and switches allows for simple, single screw installation of the modules on the mounting plates and has encouraged contractors to devise and install customised switching solutions on site. The comprehensive selection of metal clad accessories are electrophoretically coated plates and back boxes to provide a durable and long lasting heavy duty finish.

Senior Project Manager, Graham Collins, of Imtech ES Central, was responsible for installing Scolmore's wiring accessory products for this project and had this to say: "We have found Scolmore® a reliable and cost effective solution to both the needs of Wedgwood and Royal Dolton. The ease of installation that their products offer, is a highly valuable benefit to our Electricians."

Mode provides a healthy solution for Grand Designs project

Living with a suppressed immune system following a bone marrow transplant and treatment for Leukaemia, Toby Leeming, who recently appeared on Grand Designs, was determined to fulfil his long-held ambition to build his dream family home. This would require some careful consideration, particularly when it came to choosing materials and fittings that wouldn't compromise his health, and Scolmore's Mode antimicrobial wiring accessories provided a fitting solution for the electrical installation for his ambitious build.

In 2012, Toby Leeming was a musician in an up and coming band that had just released its first album. A year later, just as he had embarked on a tour of the US with his band, he became critically ill and was diagnosed with Leukaemia. With more than a year of life saving treatment to follow, during which time he was confined to hospital, he had a lot of time to think and dream about the ideal home he would like to build.

Six years later and free of leukaemia thanks to a bone marrow transplant, he and his wife and young daughter moved from London to a cottage in rural Suffolk - a much healthier environment for Toby who has a suppressed immune system and therefore prone to infections. The dream to build a home for his young family continued to drive him and following the purchase of 4.5 acres of land just 200 yards from their cottage, the dream started to become a reality.

The house was designed to incorporate features beneficial to Toby's on-going well-being and health. With some 370 square metres of accommodation to contend with, a huge quantity of wiring accessories was needed for the electrical installation. After much research, Scolmore's Mode wiring accessories were personally chosen by Toby specifically for their antimicrobial benefits, and switches and sockets have been installed throughout the six-bedroom, single-storey courtyard house.

Deco-rative accessories for Hotel Indigo, York

Products from Scolmore's vast wiring accessories collection have been specified and installed in the boutique Hotel Indigo® in York, which has been brought to the historic city by InterContinental Hotels Group (IHG), one of the world's leading hotel companies.

The intimate hotel, situated on Walmgate, is perfectly situated within prime reach of some of the city's most outstanding restaurants and bars, boutiques, artisan shops, famous tea-rooms, museums and galleries.

Guestroom interiors hint at Walmgate's chocolate heritage, including Rowntree (the famous English confectioner started life in this neighbourhood in 1725). Switches and sockets in a satin chrome finish from Scolmore's Deco® range have been fitted in all 101 bedrooms.

Deco® is a range decorative metal wiring accessories and the Deco brand has become synonymous with high specification, high quality, long life and unprecedented value for money. Deco® switches feature the same modular switch design as Scolmore's moulded ranges, which means that all the switch modules featured in the dedicated modules brochure can be used in any combination on Deco® accessories.

All Deco® 13A Sockets and Fused Connection units are tested and approved to BS1363 offering assured quality and safety were selected for installation throughout and included switched socket outlets, fused spur connection units, along with switches and dimmer switches and a host of wiring accessories products.

Sales Office

Based alongside our distribution facility, the busy sales office provides a central point of contact for all customer service requirements. The professionalism, skills and knowledge of our internal sales team enables us to provide the high standard of service that we know our customers expect. Our on-line ordering facility is also managed within this office.

Sales Structure

The external sales team has been expanded and restructured to enable Scolmore® to meet the ever changing needs of the market. As a result the sales force is now able to offer dedicated team members for distributors and contractors at local level, as well as for national accounts and also provides specification contacts to generate demand with specific customers. This gives us the ability to have a focussed approach in line with our business development plan.

In-House Studio

All marketing support including product literature and point of sale material is designed by our dedicated in-house design team. This facility enables us to offer bespoke marketing support to our customers. The availability of an on-line Marketing Hub and dedicated Marketing Support brochure provides stockists of Click® products with a range of tools to enhance their own marketing activities.

Product Development

Click® products are designed with our customer / the installer very much in mind. Our purpose built facilities and dedicated product development team, based in the UK allow us the flexibility to design and develop these products based on customer feedback and market research, ensuring we are producing a relevant, reliable and quality range of products.

Distributor Network

Scolmore® has over 2000 trading accounts providing a comprehensive network of wholesale outlets covering the whole of the UK. These are a combination of Independent Wholesalers, National Wholesale Groups and Buying Consortiums. The company sales strategy is to ensure that all Scolmore® products are available local to the requirements of the installer and specifier.

Warehouse / Service

Our centrally located 150,000sq ft Warehouse and Distribution Centre allows us to deliver our products on time, every time.

Stock

Over 7000 Click® product lines with a stock value in excess of £5 million are held at our Central Distribution centre in the West Midlands at any one time. This means we are able to offer 97% availability on stock at any given time.

Supporting Our Industry

Scolmore® is committed to supporting the electrical industry and on a regular basis is actively involved in a number of initiatives with leading industry bodies ELEX, NICEIC, ECA, EDA, NAPIT & SELECT.

Scolmore is pleased to be associated with the ELEX trade events. We are committed to the 6 ELEX regional shows: Alexandra Palace, Harrogate, Exeter, Manchester, Coventry and Sandown, where we welcome the opportunity to showcase our product range.

NICEIC Apprentice Of The Year

As a company we understand the importance of investing to develop new talent for the future of the industry. Our commitment has led to collaboration with NICEIC and ELECSA to establish the national Electrical Apprentice of the Year competition.

hub

Marketing Hub

The Marketing Hub gives customers the opportunity to enhance their own Marketing facilities with very little effort or cost. A selection of templates is available featuring many of our popular products. These templates can be customised with our stockists' details to provide maximum impact and optimise local sales opportunities.

www.scolmore.com/marketinghub

All The Latest Catalogues

The Marketing Hub has a dedicated product literature tab allowing you to download all of our latest catalogues as pdfs. These are all stored in one easy to find location with options to download only the relevant sections for you. Keep checking back when new products are launched for new information.

Full Product Image Library

Download all of our product images; each one saved by product code and at a perfect resolution for your website.

Print Ready Editable Promotional Leaflets

Promotional leaflets available for you to download, with editable sections so you can add your company's details.

Scolmore® Group App

The Scolmore® Group app allows you to use your smart phone to browse our complete range of products, add products to your Favourites or to the Quote Basket and allows you to email the contents of the basket back to yourself.

With Click®, Ovia® lighting, ESP® and Unicrimp® products available you can use the search facility to easily locate the products required.

Our App also has a useful tool kit featuring:

Quick Quote Calculator, Zs Values, Cables Selection & Voltage Drop, Adiabatic Equation Calculator, Power Factor Calculator, KVA Converter, Lighting Cost Saving Calculator, Lighting No. Calculator and many more...

Scolmore® Website

The Scolmore® website showcases the full range of quality, cost-effective products currently on offer. With regular updates on new products, as well as details of developments within our business, the site is a great source of information keeping you fully up to date with the click of a button.

Having recently updated the site to include links to product and service specific micro sites, we aim to give you access to new information in a timely fashion. You can access these sites via links on the main site or by connecting directly. Either way you can be sure you will always have the latest information at your fingertips.

Online Ordering

scolmoreonline.com

The updated site now incorporates a number of improved features that allow users to access new information directly and more easily:

- Ordering 24 hours a day 7 days a week with the ability to check current stock levels as required, meaning you are not restricted to ordering during normal office hours.
- Access to on-line catalogues will keep you fully updated with the complete product range and provide information on new products as and when they become available.
- The order tracking service keeps you up to date with the progress of your shipment.
- Managing your administration paper work is now even easier with instant access to reports and essential documents at a click of a button.
- A 'quick buy tab' and the ability to store the most common orders for repeated use, adds to the versatility and flexibility of the revised system.

To Register: E-mail us at sales@scolmore.com or call our Sales Office on 01827 63454 and one of our Sales Representatives will be more than happy to get you on-line.

Product Finder

The Scolmore® product finder tool makes it easier than ever for electricians, wholesalers and end users to search and locate products from across all categories, with just a few clicks.

Users select the range they are interested in – wiring accessories, essentials and Click Smart – and can browse through every category with ease. They can also search by finish, product type, or even brand, adding products to the basket as they go along.

For the electrician, it allows them to create a basket which can then be exported as a CSV file to send to their wholesaler for a quote or a purchase. The electrician can also direct their end user customers to the site to browse the products and create a wish list of items they will need for a particular project. Once end users have finished adding products to their basket they can easily generate a PDF file to send to their electrician.

Every product listed under the Product Finder has a downloadable specification sheet which includes the product code, description, a product image and full technical details.

Already synonymous with superior performance and innovation following eight years of success as a leading name in the lighting industry, the Ovia® brand of lighting solutions has been further developed to meet the growing opportunities that the transformed lighting industry offers.

Our aim quite simply is to bring to market - on the back of extensive research with customers and contractors - a range of Ovia® lighting products that will provide contractors with the quickest and easiest to install lighting solutions that will save them time and money on a project and that they can source through the reliable wholesale channel.

Today, the comprehensive collection of lighting products from Ovia® will provide solutions for a whole spectrum of projects in a broad variety of sectors, including domestic, commercial, industrial, utility, amenity, emergency lighting and floodlighting. The lighting offer is further enhanced with the inclusion of a full range of lighting control solutions that will optimise energy saving credentials.

EMERGENCY LIGHTING

Established as a new business by the Scolmore® Group in 2015, Unicrimp® brings to the electrical contracting industry a comprehensive range of cable accessory products.

Launched under the Q-Crimp® brand name and available exclusively through the electrical wholesale trade, the product offering comprises an extensive range of cable management consumables.

All products within the Q-Crimp® range are manufactured under stringent quality control systems and are fully compliant with the very latest industry regulations.

The range includes cable ties, crimp terminals, PVC tape, copper tube terminals, cable clips, and brass and nylon glands. In addition, the Q-Fire range of fire-rated products provides installers with solutions that will help satisfy the latest IET wiring Regulations 18th Edition.

Aligned with the core values of the Scolmore® Group of companies, Unicrimp® offers the same levels of outstanding customer service, high quality products and commitment to new product development.

Located close to the Group Headquarters in the Midlands, the Unicrimp® distribution centre is ideally located to supply to all areas of the UK.

ESP® (Elite Security Products) Ltd is a market-leading supplier of a comprehensive range of electronic security and fire protection products.

Formed in 1985, the company focusses its attention on providing innovative solutions for the evolving security market.

The emphasis of activity has been on the development of security related products specifically for the UK electrical trade. By keeping a close eye on the new technology that is emerging from the professional security sector and gauging the right time to introduce it to the electrical contract market, ESP® helps customers stay one step ahead.

ESP® has been part of the Scolmore® Group of companies since 2011, and whilst the company operates independently, ESP® benefits from the expertise, knowledge and support of the Scolmore® Group and continues to create strong growth within its product categories.

ESP's comprehensive portfolio includes CCTV, Access Control, Video Door Entry, Essentials, Fire Protection, Emergency Lighting and the Sangamo range of Time & Heating Controls.

ESSENTIALS

Founded in 1921 and proudly manufactured in the UK, Sangamo is recognised as one of the world's leading design and manufacturers of a wide range of electrical measuring and control equipment.

The experienced UK production team at Sangamo, located in Port Glasgow, have been manufacturing time switches in the UK for over 65 years.

Sangamo joined the Scolmore® Group of companies in 2018. The additional expertise, knowledge and support of the Scolmore® Group has strengthened their ability to offer a wide range of Time Switches and Heating Controls for domestic, commercial and industrial use.

With an unrivalled reputation for quality and reliability, they have built strong relationships with the UK and Ireland's major electrical wholesalers.

At Sangamo the customer service and technical support teams have the knowledge and experience to confidently offer tailored solutions across a broad range of applications.

Click® Litehouse is a joint venture operation between Litehouse Accessories Ltd and Scolmore® International Ltd.

Click® Litehouse supplies a comprehensive range of domestic and semi commercial light fittings to the Electrical Wholesale market within Southern Ireland.

We work in proud partnership with Scolmore® International and supply a complete range of the market leading "Click®" family of wiring accessories.

The Click® Litehouse range of Wiring Accessories and Lighting products are supplied exclusively via the electrical wholesale trade and a network of approved stockists nationwide. All products are stored in our modern distribution facility based in Sandyford Industrial Estate, 18 Corrig Road, IRELAND.

We strive to uphold our reputation for excellent service, high quality products and competitive pricing.

Following six years of successful trading in the Middle East, Scolmore® Group opened a head office and warehouse facility in Dubai. Scolmore International Electrical Trading (Scolmore® Dubai) is located in the heart of Dubai in the Business Bay area. Headed up by Tim Piggott, Sales Director - Middle East. The company employs a number of sales managers, as well as office and admin support staff.

The warehouse facility of Scolmore® Dubai, operating as Scolmore International Middle East Free Zone Establishment (FZE) is located about 10 miles outside of Dubai in the Free Zone area. From this prime location, Scolmore® Dubai can stock and distribute its comprehensive range of products more quickly to its customers, which include major distributors, construction clients, hotels and smaller end users.

In addition to products from across Scolmore's range of wiring accessories, a range manufactured at the Sangamo factory in Scotland has been designed specifically for the Middle East market. The Click® Seera range is a comprehensive collection of wiring accessories manufactured from Polycarbonate. It has been developed to meet the demand – predominately in the Middle-East – for a competitive, cost-effective range that offers all the style and quality of Scolmore's Mode range, but at a more competitive price point.

ESPI brings the extensive range of ESP fire protection and security products to the whole of Ireland, via a dedicated team and through the various channels that serve the requirements of the industry across the country.

ESPI operates as a stand-alone business that fully replicates the ESP business operation in the UK, with access to the same products, marketing support, technical support and new product development.

ESPI supplies through the security wholesale outlets that are responsible for supplying the various Private Security Authority (PSA) license-holding contractors that operate in southern Ireland. ESP continues to supply their existing electrical wholesaler customers in Northern Ireland.

Ovia Ireland brings the extensive range of Ovia lighting products to the whole of Ireland, via a dedicated team and through the various channels that serve the requirements of the industry across the country.

Our aim quite simply is to bring to market - on the back of extensive research with customers and contractors - a range of Ovia® lighting products that will provide contractors with the quickest and easiest to install lighting solutions that will save them time and money on a project and that they can source through the reliable wholesale channel.

Today, the comprehensive collection of lighting products from Ovia® will provide solutions for a whole spectrum of projects in a broad variety of sectors, including domestic, commercial, industrial, utility, amenity, emergency lighting and floodlighting. The lighting offer is further enhanced with the inclusion of a full range of lighting control solutions that will optimise energy saving credentials.
